

**Automation
Instrumentation
Control
Electrical**

Primary Solution & Controls is a 100% Canadian owned and operated distributor of industrial automation and instrumentation products.

World-Class Manufacturers

Our focus is on industrial automation, instrumentation, control, and electrical products. We are highly focused in developing our product offerings, and select only world-class manufacturers of sensors, motor control devices, motion sensors, flow meters, level, pressure, and temperature devices. We work hard to ensure that we supply our customers with the best quality products to meet their needs.

Industry Experience

Primary Solution & Controls has extensive experience within a variety of industries, including automotive, steel, packaging, renewable energy, plastics, greenhouses, printing, pharmaceutical, petrochemical, and more. We work closely with our industrial end users - including engineers, plant maintenance, contractors, OEM's, and many others - to help them meet their goals using our control products and systems.

Automation

- PLC's
- Touch Screens
- Sensors
- Drives
- Machine Safety
- Mechanical Products
- Rotary Encoders
- Linear Encoders
- Linear Displacement Sensors
- Inclination Sensors
- Servo Controllers
- Servo Motors
- Geared Motors

Instrumentation

- Flow
- Pressure
- Level
- Temperature
- Force
- Distance
- Metering
- Vibration
- Load Cells
- Process Controls & Indicators
- Temperature Sensors & Controls
- Panel Meters

Control

- Manual Motor Starters
- IEC & DP Contactors
- IEC Style Starters
- Push Buttons & Pilot Devices
- Switches/Controllers
- AC Motors, Timers
- Protection Relays Current/Voltage
- Liquid Level Control Relays
- Digital Meters & Current
- Softstarts/Drives
- Automatic PF Controllers
- Programmable Logic Relays
- Switching Power Supplies
- Stack-lights

Electrical

- Transformers
- Fuses
- Enclosures
- Terminals
- Wire Termination
- Wire Duct
- Machine Safety Guarding
- Counters (Digital & Mechanical)
- Relays
- Circuit Breakers
- Medium Voltage CT & PT's
- Surge Suppression Modules

Vendors

Your Partner in Automation

CARLO GAVAZZI

Automation Components

Conductor Rails and Accessories

Motion Control, Drives, PLC's, HMI's & Accessories

Standard & Special Sensors for Industrial Automation

Powering Business Worldwide

Automation Products

Electrical Enclosures

Electrical Components for Industry

Innovative Measurement Solutions

Motion Control Solutions

Control Solutions for Industry

Test and Measurement Sensors & Systems

Globally Recognized Manufacturing Specialist of Ultrasonic Sensors

Factory Automation Sensors and Devices, Machine Safety, Motion Control

Cost Effective Proximity Sensors

A Full Line of Standard and Custom-Engineered Dry-Type Transformers

Power Quality Solutions (Harmonic Mitigation) & Industrial Control Transformers

Innovative Connections Terminal Block Systems

Featured Products
